Venue : Deoksugung Palace

Deoksugung Palace is one of five royal places remaining in Seoul. Built in the 17th century and refurbished at the turn of the 20th century. Deoksugung Palace is the smallest of Seoul's palaces. The name Deoksugung Place means 'Palace of virtue and longevity' in the spirit of praying for long life for Emperor Gojong.

Located at the corner of Seoul's busiest downtown intersection, Deoksugung Palace is famous for its elegant stone-wall road. It is also the only palace that sits alongside a series of western style buildings that add to the uniqueness of the surrounding scenery. Deoksugung Palace is virtually two palaces in one-a Korean traditional complex blessed with numerous examples of late-Joseon palace architecture, and a Western-style palace complex complete with two imposing neoclassical structures and Korea's first Western-style garden.

* Please register at the GICC Desk(1F) by 08:20 and bring your GICC Name Tag.

Venue : The Smartium and Seoul TOPIS, Seoul

The Smartium

The Smartium introduces Smart City and Smart home along with related new technologies. Not just introducing the transformation of smart home and city as a result of Industry 4.0, but people can also exhibit issues like environment, renewable energies, earthquake-proof, Noise Reduction, and Energy Consume Reduction.

Seoul TOPIS

Seoul TOPIS refers to the general transport control center responsible for operating and managing Seoul's overall traffic. TOPIS does this by collecting traffic information from the Bus Management System (BMS), the Transport Card System, the unmanned surveillance system and traffic-related authorities and institutions such as Seoul Traffic Broadcasting, Seoul Metropolitan Police Agency and the Korea Expressway Corporation.
